CELINE

To whom it may concern:

In order to proceed with the examination of the said mark Applicant must submit the following information:

- ☒ 1. Clearly state the goods and/or services in connection with the mark as used or intended to be used in commerce in Puerto Rico. This applies if the Applicant customized the selection of goods or services.

The Application in reference includes a broad and indefinite description of the goods and/or services in which the trademark will be used. A written application must specify the particular goods and/or services on or in connection with which the applicant uses, or has a bona fide intention to use, the mark in commerce. To "specify" means to name in an explicit manner. The identification should set forth common names, using terminology that is generally understood. The identification of goods and/or services must be specific, definite, clear, accurate, and concise. *In re Societe Generale des Eaux Minerales de Vittel S.A.*, 1 USPQ2d 1296 (TTAB 1986), rev'd on other grounds, 824 F.2d 957, 3 USPQ2d 1450 (Fed. Cir. 1987); *The Procter & Gamble Co. v. Economics Laboratory, Inc.*, 175 USPQ 505 (TTAB 1972), modified without opinion, 498 F.2d 1406, 181 USPQ 722 (C.C.P.A. 1974).

Applicant identifies and classifies the goods and/or services as follows:

- "Apparatus for recording, transmission or reproduction of sound or images, smart watches, connected bracelets [measuring instruments]; smart rings; vinyl records; stands, bags, satchels, carriers, covers, cases for photographic apparatus, video cameras, tablets, computers, laptops, portable phones, smart phones; smartphone cases; headphones; loudspeakers; digital photograph frame; USB flash drives; electronic publications downloadable online or from the Internet; facades, wrist straps or neck straps for portable phones; earphones; telecommunications

apparatus in the nature of jewelry; optical goods, spectacles, sunglasses, goggles for sports; smart glasses; spectacle frames; spectacle lenses, contact lenses; spectacle cords and chains; cases for spectacles or for contact lenses; binoculars; decorative magnets; ring holders” in International Class 009.

The wording in the identification of goods and/or services needs clarification because it is too broad and could include goods and/or services classified in other international classes. Applicant must clarify the identification of goods and/or to specify the nature of the goods as well as their main purpose and their particular field of use or channels of trade. The applicant may aid in clarifying the indefinite term by following the indefinite subject matter with “namely, [specify goods and/or services by generic or common commercial name and field of use].” Any modification to this wording must identify goods and/or services in properly classified in the original International Class specified in the application for these goods and/or services.

Applicant may substitute the following wording:

- **“Smart watches, connected bracelets, namely, wearable activity trackers; smart rings; stands, bags, satchels, carriers, covers and cases all specially adapted for holding photographic apparatus, video cameras, tablet computers, computers, laptops, portable phones, smart phones; digital photograph frame; blank USB flash drives; electronic publications downloadable online or from the Internet in the nature of magazines in the fields of fashion, fashion show, jewelry, clothes, bags, shoes, and perfumes; wrist straps, neck straps and fitted plastic films known as skins for covering and providing a scratch proof barrier or protection for portable phones; telecommunications apparatus in the nature of wireless receivers in the form of jewelry; optical goods, namely, spectacles, sunglasses, goggles for sports; smart glasses; spectacle frames; spectacle lenses, contact lenses; spectacle cords and chains; cases for spectacles or for contact lenses; binoculars; decorative magnets; ring holders, namely, holders specially adapted for holding smart rings” in International Class 009; if accurate.**
